application

Easy to use

Ready-mixed. Handy and practical spray that simplifies the use of the product. Environmentally friendly.

Product information

Packaging: 750 ml

WORK DESCRIPTION

Preparation

Tough stains can be removed using WOCA Wood Stain Remover. Wet the surface using a garden hose or similar.

Fully hard

Exterior Multi Protector will be fully hardened after 24-48 hours.

TREATMENT

- 1 Shake the spray well before use. Spray Exterior Multi Cleaner onto the wet surface from a distance of approx. 20-30 cm in a thin, even layer until the surface is covered.
- 2 Carefully scrub the surface using a sponge or soft brush and rinse with water.
- 3 Wipe off the surface with a lint-free cotton cloth and leave the surface to dry for approx. 2 hours.

The cleaned surface will now have no protection and should therefore be impregnated the same day, using WOCA Exterior Multi Protector.

- 4 Shake the spray well before use. Spray a thin layer of Exterior Multi Protector over the entire surface from a distance of approx. 20-30 cm and leave to stand for approx. 30 min.
- 5 Carefully wipe off the surface using a lint-free cotton cloth, to remove any excess liquid.
- 6 Leave the surface to dry for 4-5 hours before use.
