

1 PREPARE 2 TREAT 3 MAINTAIN

EXTERIOR WASH-IN OIL

outdoor

For oiled wood

For cleaning and care of oiled outdoor wood surfaces, e.g. patios and garden furniture.

cleaning

3 in 1 oil soap

Cleans, oils and maintains wood surfaces simultaneously. Helps postpone re-oiling.

resistance

Increases resistance

Adds extra oil to the surface and increases the resistance of wood to wind and weather. Extends the lifetime of the wood.

PRODUCT DESCRIPTION

Forget about re-oiling for a while. Exterior Wash-in Oil is a mild oil soap for cleaning and care of oiled outdoor surfaces, such as wooden patios and garden furniture. Not only is Exterior Wash-in Oil a non-harsh surface cleaner, but it also adds extra oil to the surface, penetrat-

ing the wood and providing additional protection for up to 6 weeks.

APPLICATION AREA

For use as a maintenance oil for all types of outdoor, oil-treated wooden surfaces.

Product information

Coverage: 80-100 m²/L

Packaging: 1 L and 2.5 L

WORK DESCRIPTION

Preparation

The surface must be free of grime, grease and growth (moss, algae etc). If the wood is very dirty with grime and green growth, we recommend that the surface is cleaned with WOCA Exterior Wood Cleaner before it is treated with Exterior Wash-in Oil.

Risk of self-ignition!

Any cloths that have been soaked in oil should be stored/ disposed of in sealed containers or incinerated due to risk of self-ignition.

Maintenance and cleaning

For better results, retreat the surface every 4-6 weeks to retain the beautiful look of the wood and to postpone the next proper re-oiling.

APPLICATION

RINSING

TREATMENT

- 1 Mix Exterior Wash-in Oil with clean water in a mixture ratio of 1:10.
- 2 Apply the diluted Exterior Wash-in Oil using a WOCA Oil Applicator, soft brush or swabber and work the oil soap right into the wood.
- 3 Leave the mixture to stand for 10 minutes before rinsing off excess oil soap with clean water.
- 4 Leave the surface to dry before use.
